Modules completed

Module title	Description	Completed on	Duration
Describe the scheduling process	Describe the scheduling process	Dec 16, 2022	48 min
Explore Dynamics 365 Field Service	Explore Dynamics 365 Field Service	Dec 16, 2022	35 min

Module title	Description	Completed on	Duration
Configure Microsoft Dynamics 365 Field Service	One of the main advantages to Dynamics 365 Field Service is the ability to configure it based on your organization needs. This might include Identifying key configuration considerations, defining products and services, and other related factors and the defining the necessary Work Order Types, sub-statuses, service territories, and account configuration that will support the desired Functionality.	Dec 15, 2022	1 hr 18 min
Get to know your Dynamics 365 customers	Learn how you can get to know your customers and their industries, use a roadmap, and get testimonies.	Dec 14, 2022	1 hr 34 min
Discover the Dynamics 365 landscape	In this module, you'll explore the high-level capabilities of several of these apps and learn how they fit in with a greater Microsoft solution.	Dec 14, 2022	1 hr 20 min
Applications and infrastructure migration and modernization	Every modern business is powered by applications, such as internal procurement applications, Customer Relationship Management (CRM) systems, retail websites, and third-party products. As your business prepares for digital transformation, it's important to begin modernizing and migrating your applications and infrastructure to the cloud. Azure is a key component of that process. You can choose to migrate, modernize, or build cloud native solutions depending on your business goals and how you assess your application portfolio. This is a strategic decision. You'll be able to choose the path that's right for your organization.	Dec 9, 2022	43 min

Module title	Description	Completed on	Duration
Get started with Dynamics 365 Supply Chain Management	Dynamics 365 Supply Chain Management empowers employees and organizations with the ability to obtain a unified view of inventory, warehouse, manufacturing, service, and logistics with predictive analytics.	Nov 17, 2022	1 hr 48 min
Upload data to Azure Data Lake Storage	Learn about creating an Azure Data Lake Storage account and uploading data to Data Lake Storage Gen 2 through the Azure Storage Explorer.	Nov 17, 2022	35 min
Introduction to Azure Data Lake storage	Discover how Data Lake Storage provides a repository where you can upload and store unstructured data bringing new efficiencies to processing big data analytics.	Nov 17, 2022	30 min
Get started with Dynamics 365 Finance	Dynamics 365 Finance empowers business users to adapt to rapidly changing business environments. It provides businesses everything they need to control finances and manage funds with accurate information for financial planning and forecasting, and helps them stay up to date with analytics tools. Because finance is the core of any business, it's important to be acquainted with the capabilities of Dynamics 365 Finance.	Nov 17, 2022	1 hr 28 min
FastTrack Customer Success Program for Finance and Operations	The Microsoft FastTrack service is intended to ease your project implementation by offering guidance on best practices and answering your how-to questions from Microsoft engineering resources, who are committed to making your experience with Dynamics 365, and Finance and Operations, a great success.	Oct 24, 2022	32 min

Module title	Description	Completed on	Duration
Post go-live strategy for Dynamics 365 solutions	The Post go-live workshop gives the implementation team the opportunity to confirm that the solution has delivered the objectives that were initially set.	Oct 24, 2022	38 min
Cutover strategy for Dynamics 365 solutions	This module will help ensure that a good approach is in place for the planning, incremental readiness, testing, and implementation of the cutover.	Oct 24, 2022	50 min
Dual-write implementation for Dynamics 365 solutions	The Dual-write implementation workshop guides you through key points to help identify and resolve potential blockers to a successful dual-write implementation.	Oct 24, 2022	33 min
Integration design for Dynamics 365 solutions	The Integration workshop is part of Success by Design. This module discusses integration strategy and how the Integration workshop will help verify that the project's integration plans are comprehensive and will support initial implementation and long-term needs.	Oct 24, 2022	54 min
Review the security model for your Dynamics 365 solutions	A security strategy is key to solutions, and a Security model workshop will help verify that the customer's security model is comprehensive and that it will support their long-term security strategy.	Oct 24, 2022	1 hr 28 min
Create a data migration strategy for Dynamics 365 solutions	The overall goal of the Success by Design framework is to ensure a successful customer outcome for each implementation. The Data migration strategy workshop is designed to help ensure that the approach to data migration is heading for success.	Oct 24, 2022	47 min

Module title	Description	Completed on	Duration
Gap solution design for Dynamics 365 solutions	The Gap solution design workshop is designed for implementations that have critical requirements that the standard system doesn't support.	Oct 24, 2022	37 min
Business intelligence and analytics design for Dynamics 365 solutions	The Business intelligence and analytics design workshop is for implementation projects that have significant business intelligence and analytics requirements and need guidance and best practices for solution design.	Oct 24, 2022	37 min
Design data models for Dynamics 365 solutions	A data model workshop is part of Success by Design. This module will provide a basic description of data modeling for Microsoft Dynamics 365 and insight into how you can conduct a data model workshop.	Oct 24, 2022	56 min
Plan a testing strategy for your Dynamics 365 solution	Testing strategy, identifying gaps in testing plans, and potential risks are discussed in this module.	Oct 24, 2022	55 min
Create a solution blueprint for Dynamics 365 solutions	A Solution blueprint workshop is part of Success by Design. This module focuses on creating the blueprint, and conducting the workshop to create it.	Oct 24, 2022	1 hr 4 min
Get started with Success by Design for Dynamics 365	Success by Design is the prescriptive guidance (approaches and best practices) for designing, building, and deploying a Microsoft Dynamics 365 solution.	Oct 24, 2022	1 hr 1 min

Module title	Description	Completed on	Duration
Implement a performance strategy for Dynamics 365 solutions	A solution performance strategy in Dynamics 365 is important, and we discuss it in this module. We also cover configuration and customizations, and the impact they may have on the overall performance of your end-user experience.	Oct 4, 2022	1 hr 16 min
