Summary

A self-motivated, curious, and passionate IT Developer, who believes in magic and power of technology. I have been very fortunate to work with different business systems over my 18+ years as an IT professional, which exposed me to different technologies. It gives me a sense of fulfillment and provides me purpose when I help businesses in their journey to adopt any new technology to deal with their challenges. IT is another name for solutions and being a person with progressive mindset I love this ever-changing field which always has new and emerging solutions to learn. I am a solutions finder with great communications skills and a strategic IT leader who can help and server businesses to find and implement any possible solution.

- 18+ years of development, and software architecture experience with a Master's degree in computer science (MCA).
- 8+ years of experience as technical leader for engineering teams designing, developing, and implementing highly scalable, durable, fault tolerant web applications using Cloud, Java, Spring, AngularJs, React Js, GraphQL, Spring boot and noSQL DB.
- 15+ years of experience as IT developer in Retail, Banking, Finance, Insurance, private aviation, and Healthcare Domains.
- Expertise in designing microservices based cloud solutions and proficient with REST APIs .
- Extensive knowledge of cloud computing, Spring boot, CI/CD pipeline, Git, Node, JQuery, Groovy, Grails, Jenkins, Maven and Gradle.
- Experience architecting serverless cloud-based solutions using AWS and worked with data structures, algorithms, and design patterns.

- Proficient in using distributed technologies and messaging services and expert in Database Technologies like Kafka, RabbitMQ, Oracle, MySQL, DB2, Couchbase, MongoDB.
- Experience in Project management, DevOps, Waterfall, Agile development methodology and Test Driven Development.
- Proven problem solving, Analytical and influential leadership skills to seize opportunities by solving complex challenges with out of the box ideas
- Proven track record of delivering large scale projects with geographically distributed onsite/off-shore development teams, achieving business growth, customer satisfaction, reducing total cost of operation and improved operational efficiency.
- Expertise in facilitating and communicating complex IT solutions to technical and nontechnical audience, business partners, management and users, Believer of strong teamwork and always available to mentor and guide team members with their development path.
- Embraces challenges and high-impact assignments to deliver transformative and positive business outcomes.

Experience

Senior Java Developer

Cardinal Health

May 2021 - Present (2+ years)

Technologies – Java 8/11, GCP, PCF, gcp-BQ, AWS, Looker, Airflow, AngularJS, React JS, Node Js, Express JS, GraphQL, Spring Boot, Spring JPA, Hibernate, Microservices, Kafka, RabbitMQ, Airflow, Postman, Mysql, PostgreSQL, MongoDB, , JIRA, IntelliJ, Git/Bitbucket, Docker, Kubernetes (Amazon EKS, GKE), Jenkins, SOAP UI, Dynatrace.

As Senior developer at Cardinal I am responsible for designing and developing any technical enhancement required in the application to meet business needs. My key responsibility includes

- Create technical design and specifications for the patient claims applications.
- Code the proposed solution in Spring boot, Hibernate, Spring JPA, React JS to make sure it meets the business need.
- Create reactive UI using React, Redux, React-router, Tailwind, Hooks.
- Expose business logic as REST API using spring boot.
- Prioritize development of new business logic following microservices architecture.
- Architect end to end solutions for 3-tier applications, hands-on help to facilitate the development cycle.
- Make sure application is highly available and fault tolerant.
- Mentor and guide the team members to adopt new technology. Collaborate with other teams to resolve any issue.
- Resolving any blocker and keeping the team aligned with the business needs.

Java lead

Alliance Data Card Services / Bread Financials

Apr 2015 - Jun 2021 (6 years 3 months)

Technologies – Java, AWS, AngularJS, React JS, NodeJS, Spring boot, Hibernate, Microservices, Elasticsearch, DB2, MongoDB, Weblogic, AEM, JIRA, MyEclipse, Git/Bitbucket, Jenkins, MuleSoft, SOAP UI, Dynatrace.

As tech lead my responsibilities were to make sure any technical enhancement is done on time and meets business requirement. Develop a POC on any new technology and present as a solution to the team. Create spring boot rest APIs and resolve any blockers for the team

- Code the proposed solution in Spring boot, Hibernate, Spring JPA, React JS to make sure it meets the business need.
- Create reactive UI using React, Redux, React-router, Tailwind, Hooks.
- Expose business logic as REST API using spring boot.

Java Lead

Abercrombie & Fitch Co.

Nov 2012 - Apr 2015 (2 years 6 months)

Technologies – Java/JEE, Spring-MVC, Hibernate, JSP/Servlet, JQuery, Oracle,

Weblogic, Toad, MyEclipse, IntelliJ, SVN, Maven, Quality Center, Windows/Unix.

My responsibilities as Java tech lead is to design and develop solutions in java.

Understand the business need and translate them to technical specifications. Deliver and deploy the code on time.

Sr. Java Developer

NetJETS

Mar 2012 - Nov 2012 (9 months)

Technologies – Java/J2EE, Groovy/Grails, Oracle, Websphere/Tomcat, Toad, MyEclipse, IntelliJ, XML Spy, Rational Rose Architect, Clearcase, Buildforge, Jenkins, SOAP UI, Quality Center, Windows/Unix.

As Senior Java developer my responsibility is to develop backend Java Apis, collaborate with the team to design the API and DB scope. Deliver the code on time and provide support in production.

Java Developer

PNC

Jul 2010 - Mar 2012 (1 year 9 months)

As Java developer my main responsibility is to deliver the coded solution and provide support until its stable in production.

Technical Lead

Tata Consultancy Services Nov

2004 - Mar 2012 (7 years 5 months)

Worked with reputed clients through TCS.

Java Developer

Apple

Apr 2009 - Jul 2010 (1 year 4 months)

Java Developer USAA

2007 - 2008 (2 years)

Education

The Maharaja Sayajirao University of Baroda

Master of Computer Applications (MCA), Computer Science

2001 - 2004

The Maharaja Sayajirao University of Baroda

Bachelor of Science (BSc), Chemistry honors

1997 - 2000

Licenses & Certifications

Certified Blockchain Developer - Blockchain Council

Speaker - NFT.NYC

AWS Certified Solutions Architect – Associate - Amazon Web Services (AWS)

Issued Jan 2021 - Expires Jan 2024

Sun Certified Java Developer (SCJD) - Sun Microsystems

Skills

Technical leader • Blockchain • NFT • Web3 • Spring Boot • Microservices •
Amazon Web Services (AWS) • Software Project Management • Agile Methodologies •
SOA • Software Development • Business Analysis • SDLC • Web Services
